

INTRODUCTION

A 4-storey light industrial building with a 6-storey annex. The property is within close proximity of research and development centres such as GMTI Building, Haw Par Technocentre, Biopolis and Fusionopolis at One-North. Other notable buildings within the area are National University of Singapore and Singapore Polytechnic. The building is constructed of reinforced concrete framework and floors, brick infill walls and reinforced concrete roof/metal roof supported on steel portal frames. Fenestration comprises aluminium framed glass/casement windows, timber/glass doors and roller shutters generally.
